

HELLO,

This is our story.

We were made in Lombok, born in June 2010. It was a rocky start.

June 2011, our founder passed away after a long battle with illnesses and as with all family businesses, his son took over. Under a revitalised leadership, we were back on track and have never looked back since.

June 2014, we turned 4 with a new wing to boot and the island's longest infinity pool to boast!

December 2015, we opened our cafe, Gula Gila; serving the best coffee and the most unique cakes on the island!

The hotel holds some form of sentimental value to our people, from management to ground staff. Most of the staff you see today have stood by her in sickness and in health. Some of whom have been around since construction (6 years and more).

*After an arduous journey, as a non-beachfront hotel placed among the top 10 hotels in Senggigi today and winning awards every year since 2013, these achievements are precious to us.
We really did lived up to the phrase – 'against all odds'.*

*Located in the Senggigi tourist district, Kebun Villas & Resort is currently the only 4-star garden boutique hotel in Lombok.
Housing a various range of guests, from couples and families to weddings and company retreats, the hotel does not have an age limitation for children nor discriminate against LGBT.*

More that 50% of our compound is conserved in its natural state as part of our initiative to preserve wildlife. We are home to at least 16 endemic bird species, of which one of them is the endangered Rinjani Scops Owl, monitor lizards, monkeys, 3 African Guinea Fowls and 1 American Bully Pit.

A garden home is what we are and is what you will get, that includes insects and geckos as well.

*Thank you for choosing to stay with us.
Beaches are a dime a dozen anyway. :D*

These places have been ranked based on spice level. Please exercise **utmost honesty** in selecting your food as clean toilets are an extreme rarity when on the road.
